PAVING WORK ON US ROUTE 4 BRIDGE IN LEBANON
LANE CLOSURES REQUIRED TO COMPLETE THREE DAY PROJECT

The New Hampshire Department of Transportation announces paving work is scheduled to begin Tuesday, October 15, 2002 on the US Route 4 bridge over the Connecticut River between Lebanon, New Hampshire and White River Junction, Vermont.

This project will involve grinding up old pavement on the bridge and repaving. The paving work will take place daily from 8:00 am until 3:00 pm. It will require lane closures and is expected to take three days to complete.

Warning signs and cones will alert motorists to the lane closure on the bridge. Motorists should use caution when driving through the work zone and use alternate routes if possible.

In case of inclement weather, work on this project will be postponed until the following day.
